SUBJECT INDEX

Canadian Journal of Plant Science, Volume 70, 1990

- Acer saccharinum*
nursery performance in "Field-grow" containers, 337
- Acetylene reduction
expression of supernodulation in bean mutants, 375
- Acid soil tolerance
stress tolerance in regenerated sorghum, 997
- Aegilops caudata*
transfer of stem rust resistance to common wheat, 931
- Agar concentration
anther culture of four spring wheats, 183
- Agropyron*
Russian wheat aphid resistance in wheat, 691
- Agropyron cristatum*
mefluidide effects on crested wheatgrass, 1081
- Alar
height control of pot chrysanthemums, 925
- Alar-85
harvest time and Alar-85 on red clover seed yield, 869
- Alfalfa
a test for freezing tolerance in alfalfa, 307
alfalfa stress tolerance, 227
lignin-carbohydrate complexes of forage plants, 193
no-till pasture renovation, 261
seedling traits and mature plant yield in alfalfa, 209
self-incompatibility and cross-compatibility in alfalfa, 739
stability assessment in alfalfa, 731
temperature and alfalfa photosynthate partitioning, 203
- Allogamy
self-incompatibility and cross-compatibility in alfalfa, 739
- Alternaria brassicae*
reaction of *Brassica* species to *Alternaria brassicae*, 1159
- Altitude adaptation
effect of seed source on growth of giant wildrye, 551
- Ammonium nitrate
the effect of 'N-Serve' and N fertilizers on rape production, 979
- Anther culture
anther culture of four spring wheats, 183
- Apple
raising zinc concentration of apple leaves, 599
- Application date
time of mefluidide application, 717
- Asparagus
linuron residues in asparagus, 591
- Assimilate stress
nitrogenase activity with drought stress, 1005
- Autogamy
self-incompatibility and cross-compatibility in alfalfa, 739
- Avena sativa* L. (see Oat)
- Avenaceum*
Fusarium spp. from scabby wheat samples in Canada, 1057
- Avoine
étude d'un mélange d'orge et d'avoine, 91
- Azote
la fertilisation du tabac à tabac à cigarette, 315
- B-Nine
height control of pot chrysanthemums, 925
- Barley
effect of a seaweed extract on barley, 1163
heritability and genetic advance of hull peeling in barley, 481
hill and row plots of barley, 61
NIR prediction of barley quality, 71
quality effects of pulses on subsequent cereal crops, 1013
Tilt on spot-type net blotch in barley, 473
tolerance of barley to fall-applied trifluralin, 785
yield effect of pulses on subsequent cereal crops, 1023
- Barley (two-rowed spring feed)
Symko barley, 853
- Bean (common, field)
effects of N, strain and substrate on supernodulating bean, 955
expression of supernodulation in bean mutants, 375
- Bioxyde de carbone
enrichissement carboné de la tomate, 345

Page numbers in **boldface** refer to abstracts.

- Blackberry
freezing survival in *Rubus* buds, 893
- Blueberry (lowbush)
management programs for the lowbush blueberry, 879
- Bolting, 331
- Boron and phosphorus nutrition
boron-phosphorus interaction in maize, 455
- Brassica*
reaction of *Brassica* species to *Alternaria brassicae*, 1159
- Brassica napus* L. (see Rape)
- Brassica juncea* (see Mustard)
- Brassica kaber* (see Mustard)
- Brassica oleracea* var. *botrytis* (see Broccoli)
- Brassicaceae
differential response of selected brassicaceae to DPX-A7881, 873
- Bread wheat
end-use quality of bread wheat classes, 629
origin of a gliadin doublet of Thatcher-type wheats, 303
- Breakage susceptibility
seed properties of lentil during harvest, 1173
- Breeding methods
hill and row plots of barley, 61
- British Columbia
companion crops and forage establishment in coastal B.C., 777
- Broccoli
lamb's-quarters interference with broccoli, 1215
- Brome grass
economics of N-fertilization, 559
invasion of downy brome into Saskatchewan, 1143
Radisson smooth brome grass, 1183
time of mefluidide application, 717
- Bromoxynil
stinkweed and flaxweed control in winter wheat, 817
time of herbicide application on winter wheat cultivars, 605
- Bromus inermis* Leyss. (see Brome grass)
- Buckwheat
seeding date for buckwheat, 949
- Bulk density
seed properties of lentil during harvest, 1173
- Calibrations
effect of year on NIRA predictions of forage corn quality, 747
- Canola
economics of crop rotations in north-central Saskatchewan, 837
- Capacité d'échange cationique
effets du fumier sur la productivité du sol, 767
- Carbon-14
temperature and alfalfa photosynthate partitioning, 203
- Carbon dioxide
effects of CO₂, humidity and soil water on transpiration, 941
study of in vitro environmental conditions, 825
- Cell wall
cell wall-bound phenolic acids in ryegrass, 495
- Cereals (winter)
effects of defoliation on winter rye grain production, 285
- Chenopodium album* L.
lamb's-quarters interference with broccoli, 1215
- Chernozemic soil
the effect of 'N-Serve' and N fertilizers on rape production, 979
- Chlorpyrifos
Russian wheat aphid and winterkill, 1033
- Chlorsulfuron
stinkweed and flaxweed control in winter wheat, 817
- Chrysanthemum* × *morifolium*
height control of pot chrysanthemums, 925
- Cicer milkvetch
no-till pasture renovation, 261
- Clay, 326
- Clopyralid
stinkweed and flaxweed control in winter wheat, 817
- Coefficients de disponibilité
effets du fumier sur la productivité du sol, 767
- Cold hardening
Russian wheat aphid and winterkill, 1033
- Cold hardiness
a test for freezing tolerance in alfalfa, 307
freezing survival in *Rubus* buds, 893
- Cole crop
lamb's-quarters interference with broccoli, 1215
radiation hormesis, 369
- Combined N
effects of N, strain and substrate on super-nodulating bean, 955
- Companion crop
companion crops and forage establishment in coastal B.C., 777
systematic planting design to study forage-companion crop, 861
- Competition
systematic planting design to study forage-companion crop, 861
volunteer cereal competition in flax, 1115

- Composantes du rendement
étude d'un mélange d'orge et d'avoine, 91
- Conditionnement nutritionnel pré-transplantation
fertilisation azotée et éclairage des transplants, 1199
- Control
effect of herbicides on dandelion, alfalfa and sainfoin, 1105
- Controlled environment
effects of CO₂, humidity and soil water on transpiration, 941
- Cooking quality
seed properties of lentil during harvest, 1173
- Core breakdown
effects of diphenylamine in stored Bartlett pears, 887
- Corn emergence
predicting soil temperature for corn emergency, 619
- Costs
economics of crop rotations in north-central Saskatchewan, 837
- Cotyledon color
color retention in green field pea, 45
- Cowpea
nitrogenase activity with drought stress, 163
- Craminearum*
Fusarium spp. from scabby wheat samples in Canada, 1057
- Creeping buttercup
biology of *Ranunculus repens*, 1123
- Crested wheatgrass
economics of N-fertilization, 559
salinity and germination of wheatgrass, 707
- Crop district scale
large area spring wheat model for prairies, 19
- Crop sequence
crop rotations in north-central Saskatchewan, 383
yield effect of pulses on subsequent cereal crops, 1023
- Crop tolerance
weed control in safflower, 237
- Crossover interaction
seeding date effects on semi-dwarf spring wheats, 295
- Cruciferae
effects of water availability on glucosinolates, 399
- Cucumber
effects of planting date and plasticulture on cucumber yield, 1207
- Cultivar
tolerance of barley to fall-applied trifluralin, 785
- Cultivar description
Annette wheat, 289
Dahurian wild ryegrass, 1187
Flanders flax, 543
Frank spring triticale, 1155
KG 41 soybean, 537
KG 62 soybean, 539
KG 83 soybean, 541
Newman oat, 533
OAC Triumph summer rape, 857
Oslo red spring wheat, 299
PS 83 soybean, 541
Radisson smooth brome grass, 1183
RCAT Alliance soybean, 855
Somme flax, 545
Symko barley, 853
Tetracan, Russian wild ryegrass, 311
Yellowhead field pea, 1153
- Cultivar development
Radisson smooth brome grass, 1183
- Cultivar-environmental interaction
seeding depth and temperature on tillering, 409
- Cultivar evaluation
artificial lodging treatments to barley cultivars, 173
- Cultivars
production de semence du trèfle rouge, 1071
- Cytokinins
effects of a seaweed extract on barley, 1163
- Cytoplasm cost
comparison of the effect of *pol* and *nap* cytoplasm, 117
- Cytoplasmic male sterility
comparison of the effect of *pol* and *nap* cytoplasm, 117
hybrid summer rape seed production, 611
- Dactylis glomerata*
chemical manipulation of grass growth and quality, 501
- Daylength insensitive
Newman oat, 533
- Defoliation
